

Together with our affiliated offices in Brisbane and the Gold Coast, PMM Group is one of the largest development consultancies in Australia, employing an enthusiastic team of qualified Town Planners, Land Surveyors and Urban Designers.

Our professional services are integrated with an intimate knowledge of legislative planning and development issues.

PMM Group has extensive experience in all aspects of development and site redevelopment, including:

- Large scale residential estates
- Industrial, commercial, or retail developments
- 'Infill' residential and urban renewal projects
- Mixed-use developments
- Medium density and high-rise residential projects

Our primary goal is to generate innovative, cost effective, timely and feasible solutions on behalf of our clients.

Focus, Expertise, Commitment
.....helping you achieve the best project outcomes

urban design

town planning

land surveying

PMM Group enhances the commercial value of development sites through innovative and practical design solutions, transforming site constraints into positive site attributes.

Our team's industry experience includes:

- Master planned communities
- Mixed use and urban infill
- Strategic design advice
- Mixed industry and business
- Sustainable initiatives
- Environment controls and education
- Design workshops
- Urban design consultancy to statutory authorities
- Commercial and retail design
- Design guidelines preparation and implementation
- Residential subdivision
- Urban design input to strategic and local community plans

As an outcome-orientated consultancy we are focused on practical and timely development and feasibility advice, creative design and the streamlining of local and state government approval processes.

Our team's industry experience includes:

- Assessment of development opportunities
- Formulation of development options and strategies
- Development applications
- Negotiations with city and shire councils and government agencies
- Strategic and Local Community Plans
- Coordination and submission of Environmental Impact Assessments
- Visual Impact Assessments
- Planning and Environmental Court Appeals Project coordination

PMM Group maintains one of the largest land surveying capabilities in Queensland. We enjoy good working relationships with our clients, local government authorities and associated consultants. All surveys are subject to our stringent quality assurance process, ensuring the end result consistently meets or exceeds our client's expectations.

Our streamlined services, utilisation of the latest technology and our highly trained staff result in a more economical and efficient outcome.

Our team's industry experience includes:

- Residential and industrial sub-divisions
- Community title and volumetric surveys
- Urban renewal projects
- Boundary and topographic surveys
- Infrastructure projects
- Mining and construction

Mapping and GIS:

- Digital mapping and 3D visualisation
- Aerial photography
- Satellite imagery
- Geographic information systems
- Data acquisition
- Data management and integration

PMM Group is regularly asked to assemble teams tailored to specific projects, extending our roll to project-team leadership, facilitation and coordination. We are ardent advocates of a multi-disciplinary team approach to design and land development.
