

DR STEPHEN COOK

MBBS (QLD) MRCOG FRACOG

Specialist IVF Clinician

PROFILE

Dr Stephen Cook is a graduate of the University of Queensland and trained at the Royal Women's Hospital in Brisbane before continuing his advanced training in the United Kingdom. He was the inaugural winner of the Australian Gynaecological Endoscopy Societies Travelling Fellowship award and travelled to England, France and the United States to further advance his skills in laparoscopic and hysteroscopic surgery.

EXPERTISE

Dr Cook is a visiting consultant Obstetrician and Gynaecologist at the Royal Women's Hospital in Brisbane as well as The Wesley Hospital. His interests in IVF and infertility overlap with his interest in minimally invasive surgery and in particular the conservative management of Endometriosis.

DR ROSS TURNER

MBBS FRACOG FRANZCOG DIP OBS

Specialist IVF Clinician

PROFILE

Dr Ross Turner is a visiting Specialist at The Wesley Hospital practicing in Infertility, Obstetrics and Gynaecology. A graduate of the University of Queensland, Ross obtained his Diploma of Obstetrics and MRACOG in Queensland. He completed his Obstetric and Gynaecology Fellowship as a Senior Registrar at St Mary's Hospital, Portsmouth, UK. During this time Ross advanced his interests in Infertility and Reproductive Medicine by attending Professor Ian Craft's Infertility Clinic in London and then completed a twelve month research fellowship in Infertility at the Walsgrave Hospital, Coventry UK.

Dr Ross Turner currently has an Infertility, Gynaecology and Obstetric practice located in the Sandford Jackson building at the Wesley Hospital in Brisbane.

EXPERTISE

Dr Ross Turner's interests include infertility, IVF, general gynaecology, laparoscopic and minimally invasive surgery.

Wesley Monash IVF Clinicians

WesClin 11/11

Wesley Monash IVF is proud to have a dedicated team of highly skilled and experienced Fertility Specialists. All have specialist obstetrician and gynaecological qualifications and have developed their special interests in infertility areas over many years.

DR JOHN ALLAN

MBBS (QLD) FRANZCOG

Specialist IVF Clinician

Medical Director, Wesley Monash IVF

BACKGROUND

Dr John Allan founded Qld IVF Services at the Wesley Hospital in 1988. In 1999 the IVF unit was purchased by the Uniting Church of Australia and became the Wesley IVF service. Dr Allan was appointed Medical Director of the IVF unit and Director of Reproductive Medicine at the Wesley Hospital.

The Wesley unit combined with Monash IVF in 2004 to create the current Joint Venture Wesley Monash IVF of which Dr Allan remains Medical Director.

RESEARCH AND EDUCATION

In 1997 Dr Allan developed a new method of freezing testicular biopsy sperm greatly improving outcomes in the treatment of male infertility. He remains actively involved in research and journal publications in order to maintain the best quality of care for the unit's patients.

Over the past decade, collaborative research with QUT into the effect of Chlamydia and Urea Plasma on both male and female infertility has been published and John's commitment to the value of such research has seen him appointed as a member of the Wesley Research Institute Board.

To promote education for health professionals in the area of infertility and pelvic surgery, Dr Allan founded the biennial Pelvic Surgery and Infertility Conference at The Wesley Hospital and established the Medical Student teaching program at the Wesley IVF Unit in 1990. Currently students from UQ, Griffith and Bond Universities all receive training in gynaecology and infertility through the Wesley Monash IVF unit.

Dr Allan maintains a strong connection with the Scottsdale Mayo Clinic, USA and has presented at the clinic's annual

conference in Advanced Laparoscopic and Gynaecologic Surgery for many years.

ETHICS

In recognition of the importance of maintaining ethical standards in medical practice, Dr Allan is an active member of the UnitingCare Health Human Research Ethics Committee who review all research on the Wesley Hospital campus.

EXPERTISE

Since obtaining his specialty in obstetrics and gynaecology in 1984, he has been a driving force in the treatment of patients undergoing assisted reproductive technology.

His interests and expertise include endoscopic and laser surgery, endometriosis, polycystic ovarian syndrome, IVF, pre implantation genetic diagnosis and male and female infertility.

DR JOHN CHENOWETH

MBBS (QLD) FRANZCOG

Specialist IVF Clinician

Deputy Medical Director, Wesley Monash IVF

PROFILE

Dr John Chenoweth obtained his Obstetric and Gynaecology specialist qualifications in 1984. He undertook part of his specialist training in the UK where he received the Gold Medal for his membership examination.

He went on to conduct a very busy private obstetric and gynaecology practice before joining the Wesley Reproductive Medicine and Gynaecological Surgery Unit in 2000. Dr Chenoweth became Deputy Medical Director of the Wesley IVF unit and currently holds the same position within the Wesley Monash IVF unit.

EDUCATION

John has a strong commitment to the training of our doctors of the future and is actively involved in the Medical Student teaching program run at the Wesley Monash IVF unit.

He also has a special interest in medical ethics and how this applies to the management of the infertile couple.

EXPERTISE

His areas of expertise include endoscopic and laser surgery, endometriosis, polycystic ovarian syndrome and male infertility.

Although working extensively in reproductive medicine and infertility he also provides a comprehensive service in all aspects of general gynaecology and pelvic reconstructive surgery.

DR STEPHEN BAINES

MBCHB FRANZCOG

Specialist IVF Clinician

PROFILE

Dr Stephen Baines was educated in Zimbabwe and South Africa and completed his specialist training in Obstetrics and Gynaecology in Johannesburg in 1991.

He immigrated to Australia in 1994 and took up the position of Director of Obstetrics and Gynaecology in Maryborough and Hervey Bay Hospitals.

He has been interested in reproductive medicine since completing his specialist training in 1991 and to further his practice in infertility he joined the full time staff of The Wesley Reproductive Medicine and Gynaecological Surgery Unit at the Wesley Hospital in 2001.

EXPERTISE

His interests and expertise include male infertility, pre implantation genetic diagnosis (PGD), polycystic ovarian syndrome, endometriosis and endoscopic and laser surgery. Dr Baines also offers expert care in all areas of general gynaecology and pelvic reconstructive surgery.

In addition, he maintains his commitment to improving women's reproductive health in regional Queensland by continuing to conduct fortnightly out patient and operative clinics at Maryborough.
